Adding Asset Protection to Your Practice Using the "Bridge Trust"®**

Douglass S. Lodmell, JD, LL.M.,

Pioneered by Lodmell & Lodmell nearly 20 years ago, the "Bridge Trust"® combines the strength of a fully offshore asset protection trust, with the ease of use and low maintenance of a simple domestic grantor trust. Understanding of the complicated options available to protect a client's assets has become a critical component of your job as an advisor to your clients. Clients are asking to be informed and educated about asset protection. The presentation will provide you with an overview of the tools and information you need to educate your clients in this complex area of law, including offshore options, domestic tools and an understanding of the "Bridge Trust"® which combines the strength of an offshore asset protection trust, without the cost, complexity and compliance requirements.

**The Critical Importance of High Investment Returns and
Tax Free Compounding, and How to Achieve Them**

Jonathan G. Blattmachr, Esq., AEP® (Distinguished)

Pioneer Wealth Partners, LLC

From Albert Einstein's observations that compounding is the most important thing in the universe and the hardest thing in the world to understand is the Internal Revenue Code, we derive the corollary that the most important thing in financial planning, of which estate planning is a subset, is tax free compounding. Understand how higher compounded returns build proportionately more wealth and proportionately increase the results of selected estate planning strategies will help you serve clients better. Furthermore, understanding how current income taxation retards both wealth building and estate planning success is also critical to best serving clients. This presentation will cover those items in detail, with examples.

9:05 am - 10:05 am

Ten Charitable Planning Ideas for the Current Environment

Kathryn W. Miree

Kathryn W. Miree & Associates, Inc.

The backdrop for charitable planning keeps changing, with rapidly changing investment markets, low interest rates, uncertainty about income, higher gift and estate tax exclusion amounts, higher income tax rates, and a tightening legislative environment. While donors are continuing to give, they are seeking ways to maximize results. How do you identify charitable giving options that best fit the needs of your clients in this rapidly changing environment? This session will cover: insights into the current charitable gift planning environment and how those factors impact planning decisions; the key elements of the American Taxpayer Relief Act of 2012 and how that impacts planning; easy strategies for lifetime giving that maximize benefits for donors; the most effective strategies for testamentary charitable giving; new options for charitable gifts outside of traditional structures; how to select the most effective assets for charitable gifts; charitable strategies for retirement planning and to care for elderly parents, children, and grandchildren; integrating the sale of a business with a charitable gift; how to talk with clients about charitable goals and objectives; and how to integrate clients' personal estate planning goals with charitable gift options.

The Mathematics of Estate Planning

Robert S. Keebler, CPA/PFS, MST, AEP® (Distinguished), CGMA

Keebler & Associates, LLP

2016 marks a continuation of relative stability in estate tax law and remarkably low interest rates. Learn how to help your clients capture benefits that currently exist, but may be lost (or at least whittled away) in coming years. This seminar will cover mathematics behind popular estate planning transactions and techniques. Topics to be covered include: gift, estate and GST tax rates and exemptions; tax exclusive nature of gift taxes; leveraging of the GST exemption; Grantor Retained Annuity Trusts (GRATs); installment sales to Intentionally Defective Grantor Trusts (IDGTs); Self-Canceling Installment Notes (SCINs); private annuities; and the "tax burn" SCIN technique.

Advanced Estate Planning Strategies Conference

- 11:30 am - 12:30 pm **Sponsored Session provided by Ashar Group, LLC**
Policy Valuation and Transfer Tax Conventions vs. Market-Based Valuations
Lawrence Brody, JD, LL.M., AEP® (Distinguished) & Jon B. Mendelsohn
Bryan Cave LLP / Ashar Group, LLC
Too many seniors are forfeiting their life insurance policies back to the insurance carrier for little or no value, or accepting policy values reported on IRS Form 712 without ever getting the policy appraised for fair market value. It's not uncommon to see six to seven figures of value being left on the table out of lack of awareness or oversight. At a minimum, this can place the reputation of trusted advisors in jeopardy, but could also lead to unexpected liability exposure. This session will address why this topic is so relevant, important considerations, and will include multi-disciplinary case studies of advanced planning applications for market-based valuations.
- 12:30 pm - 1:30 pm Lunch with Exhibitors
- 1:30 pm - 2:30 pm **Collaboration Across Small and Great Divides: Teamwork, Tensions, and Client-Centered Solutions**
Nancy B. Rapoport, JD
William S. Boyd School of Law, UNLV
This session will use social science principles to discuss better and worse ways of encouraging collaboration in and across teams.
- 2:35 pm - 3:35 pm **Privileges/Valuation - Exploring Privileges in the Context of Hiring Appraisers**
Stephanie Loomis-Price, JD
Winstead PC
This session will provide practical tips with discussion on recent developments in audits and case law related to privileges applicable to estate planning, with a particular focus on planning with family limited partnerships.
- 3:35 pm - 4:05 pm Break with Exhibitors
- 4:05 pm - 5:05 pm **What Can We Learn from the Estates of Deceased Celebrities?**
John J. Scroggin, JD, LL.M., AEP®
Scroggin & Company, P.C.
It is intriguing how simple estate planning mistakes are so often replicated and exaggerated in celebrity estates. This presentation discusses the mistakes and successes in the estate planning of a number of celebrities and how to improve your client's estate planning in light of those mistakes and successes.
- 5:15 pm - 6:15 pm Concurrent Supplemental Sessions (please indicate attendance on the registration form):
- Exclusive AEP® and EPLS Designee Session: Fearless Public Speaking for Estate Planners, a dialogue with Conrad Teittel, LL.B., LL.M., AEP® (Distinguished)**
Cummings & Lockwood LLC
This session is available only to active AEP® designees and EPLS certificants and will offer a unique opportunity to learn from one of the best public speakers in the field of estate planning. Teittel will also be receiving the NAEPC Hartman Axley Lifetime Service Award during the Awards Ceremony on Friday, November 18, 2016.
- The Accredited Estate Planner® (AEP®) Designation Program from A - Z**
For those who are interested in learning more about or attaining the AEP® designation, this session will provide an overview of the program and offer an opportunity to have your questions answered by the experts at NAEPC.

ce Schedule of Events

- 10:10 am - 11:10 am **An Interview on the Nature and Practice of Our Profession and its Capacity to Meet the Challenges of the “Shirt Sleeves” Proverb**
James E. Hughes, Jr., Esq.
What is excellence in estate planning, and how are we doing as a profession, and as practitioners? This engaging interview will identify and address some of our most difficult challenges and issues, including the “shirt sleeves” proverb, the nature of entropy, why failure of a family to flourish is normative, and the question of courage within our profession. We will explore why and how “masters” build teams who help families leverage their wealth to promote growth and freedom, rather than cement entitlement and dependency.
- 11:15 am - 12:15 pm **The Governing Law Clause in Trusts - Not Just Boilerplate Anymore**
Jeffrey Schoenblum, JD, AEP® (Distinguished) Nominee
Vanderbilt University Law School
Trust law is becoming incredibly diverse from state-to-state, with real opportunities available to savvy planners who know how to select the favorable law of a particular jurisdiction. But these “opportunities” can also be oversold. This presentation will focus on whether governing law clauses choosing the laws of favorable jurisdictions actually work, how they should be drafted to be most effective, and, why it is not enough to simply select home state law.
- 12:15 pm - 1:15 pm Lunch with Exhibitors
- 1:15 pm - 2:15 pm **Family and Multi-Disciplinary Team Dynamics for High Performance Family Wealth and Business Succession Planning**
Kathy K. Wiseman
Working Systems Inc.
This session will offer an introduction to the “why” and the “how” of addressing the personal aspects of assets as they move to the next generation and will help advisors provide the very best for their clients, a multi-disciplinary team that addresses the human dynamics of wealth and business succession.
- 2:20 pm - 3:20 pm **Sponsored Session provided by Sterling Foundation Management Secondary Planning for Charitable Remainder Trusts (CRTs)**
Evan Unzelman
Sterling Foundation Management
At its inception, a charitable remainder trust (CRT) is usually a perfect fit for a client’s situation. It’s just the right kind of CRT, has just the right payout rate, has just the right beneficiaries. But a CRT is an irrevocable trust - its terms cannot be changed - and usually spans decades of a client’s life. Over time, this combination of an inflexible trust on one hand, and a client’s changing life on the other, can lead to a misalignment between the client’s situation and the CRT. In these cases, some form of secondary planning is probably in order. Unzelman, President of Sterling Foundation Management, will discuss the range of options available to clients who have CRTs and how to determine which option, if any, is a fit for a given client.
- 3:20 pm - 3:35 pm Grab & Go Refreshment Break
- 3:35 pm - 4:35 pm **Loan Regime Split-Dollar for Both Single and Joint Lives**
Michael Amoia, JD, LL.M., CLU®, ChFC®
Crump Life Insurance Services
The mention of loan regime split dollar has generally triggered one of two responses: 1) I don’t understand, I thought all split dollar arrangements were dead after the 2003 Final Regulations, or 2) it is too difficult to set up and administer, so we just have clients pay the gift taxes on any premiums paid above the annual exclusion. However, both responses are incorrect! Split dollar is still useful in many situations, both private and compensatory. This session will cover how to determine if arrangements should be set up as a loan regime split dollar or another structure, how to maximize the structure long-term for clients, the key items under the regulations when installing and administering a loan regime split dollar plan, and why split dollar loans are different than other loans.
- 4:35 pm - 4:45 pm 53rd Annual NAEPC Advanced Estate Planning Strategies Conference Farewell
